- Less than 24hrs = 100% fee

Validity:

- 1 April 2019 - 31 March 2020

Putting the 'wild' back into Wildlife

Less than two hours south of Sydney this exceptional tour offers the opportunity to experience the diverse Aussie Bush while searching for Australia's iconic native animals in their natural habitat - kangaroos, wombats, wallabies, birdlife, platypus, elusive koalas . . . and much more.

Travel in a luxury 4WD to private land, parks, forests and bushland locations in the Southern Highlands with a specialist guide who will interpret all that you see. Animals migrate throughout the area and sightings vary seasonally. Search for kangaroos and wallabies in open clearings, try to spot a koala in woodland forests of Grey Gums, surprise a platypus along the riverbanks in the warmer months.

After dinner, go night-spotting for nocturnal wombats, gliders & possums. We seek out the animals when they're most active, with a noon to evening tour that includes lunch or afternoon tea (depending on season) & a hearty country-style dinner in one of Australia's oldest country inns.

This is an exceptional way to see Australian wildlife in its natural environment.

Trip highlights & key points

- Travel 2 hours to the Southern Highlands to see wildlife *in the wild*
- In search of native animals in their natural habitat - kangaroos, wombats, wallabies, platypus, birdlife, the elusive koalas
